Re: Fujairah Private Academy

To whom it may concern

I write in my role as Executive Officer of the Association of British Schools Overseas (AoBSO) a UK Government Department for Education approved membership association for UK Government accredited British Schools Overseas.

I am pleased to confirm that **Fujairah Private Academy** is accredited under the DfE BSO inspection scheme. This inspection and accreditation allows the school to compare itself to the leading Independent Schools in England such as Eton and Brighton College and many of the very best British Schools around the world. This is the only accreditation scheme endorsed by the UK Government and advocated within the UK Government's International Education Strategy.

BSO Inspectorates are approved by the DfE and monitored by Ofsted to inspect British curriculum schools outside the UK, produce inspection reports and recommend the award of BSO. The BSO inspections are based upon the Independent School Inspection Standards in England and BSO reports inform parents about the quality of provision within the inspected school, allowing direct comparison with the inspection reports of Independent Schools in England.

I am delighted to be able to confirm that Fujairah Private Academy is accredited by the UK Government and meets all of the standards required to be a British School Overseas.

I trust that this information is sufficient to satisfy your requirements but should you require any additional information please do not hesitate to contact me via email on admin@aobso.uk
